R0501500	Orifice Cleaning Kit, LXi	\$33.73

## Temperature Controls

The mechanical temperature control originally supplied with some millivolt heaters can be replaced by an electronic millivolt control. Use the original part number, R0058200, for the electronic control. This part contains all the necessary parts to convert the old temperature control to the electronic control. The new electronic control, R0058200, will work on the following models: EG, EPG, ESG, LLG. The mechanical temperature control can be purchased with part number R0318800, and must be used on the following models: EC, EPC, DP.
